

FormulaTracer Probability Audit

Overall status: PROBABILITY_AUDIT_EMPIRICALLY_SUPPORTED
Distribution: UserDefinedDistribution

Formal / reference boundary

Definition: DISTRIBUTION_DEFINITION_NUMERICALLY_VALIDATED
Sampler conformance: SAMPLER_CONFORMANCE_NOT_PROVEN

Empirical distribution validation

Status: DISTRIBUTION_EMPIRICALLY_SUPPORTED
Sample size: 200
Empirical CDF distance: 0.0025

Dependence diagnostics

Status: INDEPENDENCE_EMPIRICALLY_INCONSISTENT

Estimator / Monte Carlo

Estimate: 0.5
Sampling claim: MONTE_CARLO_PROBABILISTIC_ENCLOSURE_UNDER_ASSUMPTIONS

Trust boundary

Empirical support is not a distribution proof. PRNG internals and physical randomness are not kernel verified.
